Dinosaurs

OBJECTIVE

Third-year BSc IT student at North-West University with a consistent record of academic distinctions. Experienced peer mentor and tutor, guiding fellow students through coursework, projects and test preparation. Comfortable across Python, C++, C# and Java, with a strong interest in algorithms, pathfinding and building small games from scratch. Proven team leader with a track record of top project marks. Preparing to pursue Honours, then a Master's, in IT / Computer Science.

Leads by example, decisive under pressure, and willing to carry the extra weight to get it right.

EDUCATION

BSc Information Technology — North-West University

Potchefstroom · 3rd year, in progress · 13 distinctions in BSc IT to date

Planning to pursue Honours, then a Master's, in IT / Computer Science.

EXPERIENCE

Lecturer Assistant & Peer Tutor (Part-time)

North-West University · 2024 – Present

- Mentor and tutor fellow students in courses where I achieved top marks, reinforcing core concepts and problem-solving approaches.
- Guide students through project work with structured feedback and practical implementation strategies.
- Advise students on test preparation, sharing insight on expected content and effective study approaches.

PROJECTS

- QCAS — Ambulance Inventory System** (2nd year) — led the group build of a System Analysis project to a 100% final mark. [GitHub →](#)
- Stoep-n-Stay — Real Estate Database** (3rd year) — led the group build of a Databases project to an 87.7% final mark. [GitHub →](#)
- FlappyAskii** — a console Flappy Bird clone in C++, built from scratch with no graphics library. [GitHub →](#)
- Game of Life & Pathfinding Experiments** — Conway's Game of Life and mathematically accurate pathfinding/dragon-curve pattern generation. [GitHub →](#)

"Life finds a way."
